Outdoorsiness meters are verified to RS-703A (Radian Standard) which is directly traceable through Radian Research to NIST. With more than 30,000 meters moving through our shop every Month, we are a leading provider in electrical meters

Each of our meters is guaranteed to be free from defects in materials and workmanship for a period of six (6) months from the date of purchase. If a meter is found to be defective within the first thirty (30) days, we will replace the meter at no cost to the customer, including shipping fees. After the initial thirty (30) days, Outdoorsiness will replace the defective meter free of charge; however, the customer will be responsible for all associated shipping costs.
